### They Have It At Shiner- burg.

The anti-gambling law just gone into effect is a far reaching one. It not only cuts out gambling all over the state but it prohibits many games of pleasure, such as bowling, pool unless you pay for your own cue whether you win or lose, card playing and dominoes in saloons. Our little city will feel the effects of this measure quite a good deal for many of our good citizens pass many pleasant hours away with a social game with cards or dominoes in our saloons, but this will be no more as the penalty is too high to make a test.

The Hallettsville summer normal, which will embrace the three counties of Lavaca, De Witt and Gonzales, and will open June 17, closing August 2nd. The faculty has been definitely agreed upon, Prof. K. A. Jones being conductor and Professors C. A. Peterson and J. W. Bagby of Yeakum and F. P. Grentner of Hallettsville, assistants. Hallettsville Herald.

The Anti-Gambling bill is now a law all over Texas. It is very drastic, and makes gambling a penitentiary offense, and makes the owner of the building who rents or leases for gambling purposes guilty of a penitentiary offense. The gambling houses in San Antonio, Ft. Worth and Dallas, were closed at once and the gamblers will be compelled to go to other states.

Hundreds of Japanese are now in Mexico seeking to get admission to the United States. They obtain passports in Japan for Mexico, with no intention of remaining there. They are being smuggled across the Mexican border into Texas, where they seek work on the railroads. The government is doing its best to prevent them from coming into this country.

Major Penrose says the negroes did shoot up Brownsville, and then again he says they didn't. Which are you going to believe? The Major also says that McDonald is a coward, and no Texan will believe that.

The Legislature has now extended the time for adjournment to Friday, April 12. It is more than likely that another postponement will be necessary if the work is to be completed.

Now we have a scrap on between President Roosevelt and Mr. Harriman. Harriman says Roosevelt pulled him for \$50,000 in 1904 for campaign money, but Roosevelt denies it.

The lunacy commission in the Thaw case has declared Thaw to be sane. The next thing will be a verdict of acquittal by the jury.

McLennan county, including the city of Waco, is in the throes of a local option election. The election is set for April 27. This is getting dangerously near.

The race between Pat and

and Taft for the presidency will be something like the race between the Hare and the Turtle.

The Naval forces down in Central America consists principally of schooners and tow boats and a frightful battle is imminent.

The unclaimed wage account of the G. H. & S. A. Ry., is said to be \$0,000,000. This calls for more watered stock.

The question of the hour—will you have to make a new rendering of your property for taxation?

According to Mr. Foraker the town of Brownsville, never was shot up, it was all imagination.

Excursions are now the order of the day and the railroads will reap a harvest of dollars.

The appropriation bill has been passed by the Senate but is still hanging fire in the house.
